PROFILE SUMMARY

I am a junior **MERN** stack developer with **1+ years of** experience in this technology stack. I began my journey in 2019 as a front-end developer specialising in HTML, CSS, and JavaScript. My skill set includes a strong foundation in both front-end and back-end development. At present, I am learning **Next.js** and **TypeScript**.

SKILLS

- **Front-End:** HTML, CSS, JavaScript, React, TanStack Query, Tailwind, DaisyUI.
 - **Back-End:** Node.js, Express, JSON Web Token.
 - **Database:** MongoDB.
 - **Payment:** Stripe.
 - **Authentication:** Firebase.
 - **Tools:** VS Code, Git, GitHub, And Figma.
-

PROJECTS

GetEarn – Video Watching & Earning Platform

[Live-Link](#) || [Client-Side](#) || [Server-Side](#)

Definition: A MERN Stack-based micro-task platform where users earn coins by watching videos.

Designed for Workers, Buyers, and Admins with full role-based functionalities.

Technologies: JavaScript, React, Express, MongoDB, Tailwind, Firebase, TanStackQuery.

Key Features:

- Role-based dashboards for Admin, Buyer, and Worker.
- Video task system with submission and review flow.
- Coin-based economy with Stripe payments and withdrawals.
- Secure JWT authentication and Google sign-in.
- Admin tools for managing users, tasks, and payouts.
- Fully responsive design with modern UI.

CERTIFICATION & COURSE

Programming Hero

Credentials | 02/25

Completed a comprehensive web development course, covering essential technologies such as React, Node.js, Express, and MongoDB.
